RE: Planning Commission Bylaw Amendments

---

### MEMORANDUM

---

At its January 14, 2014, meeting, the Planning Commission determined that its bylaws were due for extensive review and charged me with preparing some revisions.

The attached revisions are based largely on changes that were made by the Zoning Board of Appeals when they adopted their Rules of Procedure this past year. Comments from several Planning Commissioners were also incorporated. Other changes were based on making the document easier to use and for grammar.

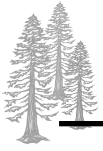

The Planning Commission may adopt changes to its bylaws at its February 25, 2014, meeting, if a 2/3 vote is given for such changes. It may also direct Planning Staff to prepare further revisions.

Proposed changes are outlined in red (or blue) text. Proposed additions are underlined; proposed deletions are ~~stricken through~~. Areas identified as possibly requiring further attention have yellow highlighting.

Since all the Planning Commissioners should have their own copy of the current Bylaws or access to them on the Township's website, that version will not be sent out. Copies can be made available if necessary.

Please contact me if you have any questions or suggestions.

Zach Michels
